

# COLLAB DRAWING GAME

Exquisite Corpse is a collaborative drawing game that ends up with hilarious results that are just as crazy as the name Exquisite Corpse. This game was invented by Surrealist artists to collaborate and create spontaneous images as a group of artists.

**Full YouTube Tutorial:** <https://youtu.be/FUKwnewqQms>

## ASSEMBLE YOUR TEAM

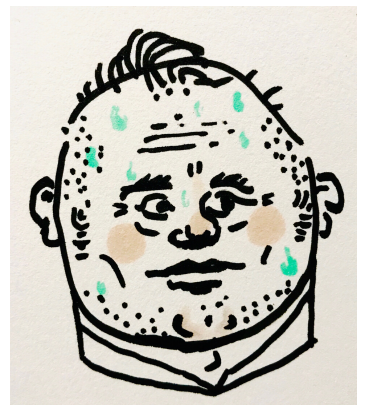

Find two other artists who will complete your collab drawing. You can do this with your family in the same room or you can text a couple friends and have them send you a picture of their drawings!

## DRAW A HEAD

One artist starts by drawing a head of any human, animal or creature from your imagination. Make sure to include a neck!

If you are doing this in person, fold your paper into thirds and fold it back each time. Make sure the next artist can see the guidelines of the previous drawing.

**Confused? Watch me do this:** <https://youtu.be/FUKwnewqQms>

## DRAW A TORSO

The second artist will draw a torso. A torso includes a chest, arms, and a waist. Imagine your creature is wearing a belt and this is where the torso would stop.

## DRAW LEGS

The last artist will draw the legs. Don't be afraid to think outside of the box! This drawing does not have to make sense.

## REVEAL!

Unfold your paper if you are doing this in person or add your digital images to a free collage app (I love Photoshop Express) or add it to a Google Word Document or Presentation.
